DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on January 24, 2007 has been entered. The previous rejection is withdrawn pursuant thereto.
2. Claims 1-10, 14-20, 27-51, 63-67 and 82-85 are still withdrawn from consideration as drawn to a non-elected invention.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
4. Claims 68-81 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 68, lines 6-7, ("premium telephone communication link") is not clear in juxtaposition with the four words immediately preceding it. It would appear the telephone link is either a premium telephone communication link or not. Clarification is required.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 68-81, as understood, are rejected under 35 U.S.C. 103(a) as being unpatentable over Stewart et al., US 7,051,072, in view of Chen, US 5,978,775.

Stewart discloses, e.g. Figs. 1-26, a computer readable medium, e.g. claim 14, an electronic commerce system/method for placing an order for a product, comprising a premium telephone line, e.g. and a plurality of plug-ins, e.g. logic, business protocol, for facilitating such. Stewart does not disclose a premium telephone communication link, e.g. a "900" number.

Chen discloses a billing system for purchasing a product, e.g. information, using a premium telephone communication link.

To have provided a premium telephone communication link for Stewart would have been obvious to one of ordinary skill in the art in view of Chen.

It is further noted that Applicant's claim language is replete with intended use claim language, e.g. claim 68, lines 2, 10 "for ordering a product," "is to be," is given little, if any, patentable weight in juxtaposition with positively recited claim language, e.g. a computer readable medium. Applicant's January 24, 2007 REMARKS have been reviewed, but are moot in light of the new grounds of rejection.

7. Further pertinent references of interest are noted on the attached PTO-892.
8. Applicant's Information Disclosure Statement received March 29, 2007 is noted. However, none of the art was provided. Thus, each reference has not been reviewed.
9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andrew Joseph Rudy whose telephone number is 571-272-6789. The examiner can normally be reached on Monday thru Friday.
